

# Google Classroom

Doug Kiley

History

## Description of the Technology

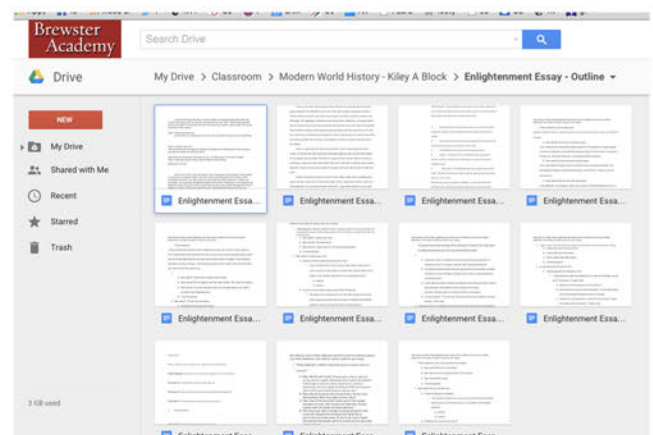

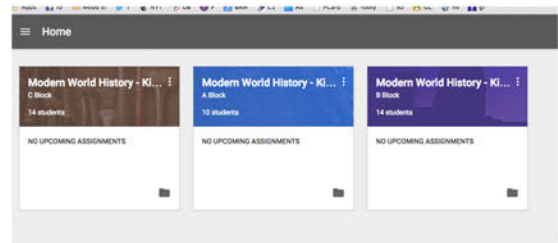

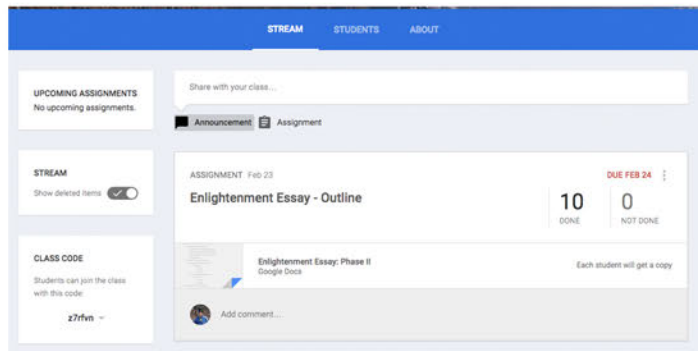

---

Google Classroom is designed to help teachers create and collect assignments paperlessly by leveraging Docs, Drive and Gmail. Basically, Google has taken a process that many were already using and streamlined it to make it more useful.

## Google Classroom Allows Me to...

---

- Create and collect assignments paperlessly
- Automatically make a copy of a Google document for each student
- Quickly see who has or hasn't completed their work

## Google Classroom Allows My Students to...

---

- Keep track of what's due on the Assignments page
- Easily submit written assignments for my review
- Attach audio, video, or any other type of file to an assignment
- Use their smart phones to snap a photo and attach it to their assignment
- Access content even when there is no internet connection via the mobile app
