

Wolfram Alpha

Chris Hafner

Information Technology

Description of the Technology

It's not a search engine, it's not an encyclopedia, and it's not a calculator, but it's a little bit of each of them. Wolfram Alpha is an online computational knowledge engine that answers factual queries not with lists of web pages, but with real live data from curated sources.

Wolfram Alpha Queries...

- plot $\sin x \cos y$
- translate "beauty"
- compare 175lb vs 100kg
- Ohm's law calculator
- msft, aapl, goog
- what color would I get 2 parts red + 0.5 parts light orange + 0.3 parts brown
- compare: Warhol's Marilyn Monroe, Campbell's Soup Cans, Eight Elvises
- how many daily hits does brewsteracademy.org get
- how many kids are repeating primary school in Mexico
- George Washington, George Washington Carver
- compare elements N,O,F
- gas prices european countries
- population Brussels / Paris
- Vitamin A in 250g sweet potato
